12v 110a lithium battery pack

Overview

What is a 12V lithium ion battery pack?

A 12V lithium ion battery pack is a battery pack made up of three or four lithium batteries connected in series and several lithium batteries connected in parallel. This configuration allows the capacity of a 12V lithium battery to be customized.

What is a 12V 110ah battery?

This 12v 110ah battery is a LiFePO₄ lithium chemistry. Which offer BMS controlled safety, long life, fast-charging performance, also the BMS embeds smart balancing algorithms that control all cell voltages in the battery, making sure they are constantly at the same voltage level, optimizing battery capacity.

What is a 12V rechargeable battery pack?

A 12V rechargeable battery pack is a type of battery pack that we offer, which is built using 18650 cells, prismatic LiFePo₄ cells, and lithium polymer cells. In addition to the 12V battery pack, we can provide related 12V lithium battery chargers at a very low cost.

What is a 12V Li-ion battery pack?

A 12V Li-ion battery pack is popular in various fields such as CCTV, cameras, RVs, and marine applications. At Coremax, we have designed many types of battery packs specifically for devices that use 12V DC battery. The 12V li-ion battery pack is a type of rechargeable battery pack.
