

SolarMax Energy Systems

2 5MWh energy storage container

Overview

How many MWh is a PCs battery system?

- PCS Assembly is equipped with two sets of 1250 kW PCS and one set of 2500 kVA step-up transformer.
- The energy storage system includes 2 sets of 20 ft 2.752MWh battery compartment, and one set of PCS assembly. The project total capacity of BESS is 5.505 MWh. BESS Configuration Battery System.

What is a containerized battery system?

Whether paired with EV charging, solar, wind, or other renewables, these containerized battery systems help reduce energy costs, boost site resilience, and unlock new revenue streams.

What is included in a container?

Every container includes high-performance batteries, a power conversion system or hybrid inverter, advanced thermal management, an intelligent control unit, and comprehensive safety systems, including integrated fire suppression and a sophisticated battery management system.

2 5MWh energy storage container

All-in-One Containerized Battery Energy Storage Systems

EVESCO's all-in-one containerized energy storage systems are fully integrated, plug-and-play, manufactured, pre-configured, commissioned, and tested at our production facilities. This ...
