

SolarMax Energy Systems

280 cell battery cabinet

Overview

What is a Mason 280 battery kit?

Description This Mason 280 battery DIY kit bundle includes all the accessories to assemble a substantial 14.33Kwh battery pack for home energy storage and solar battery storage.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

How long does a 280 AC cell last?

The cells with a capacity of 280 Ah have a discharge rate of 1C and a cycle life of up to 10,000 cycles. The integrated frequency conversion liquid cooling system helps limit the temperature difference among cells within 3 °C, which also contributes to its long service life.

Which batteries are compatible with ve 280k & GF 280 LiFePO4?

This battery box is compatible with EVE 280K, EVE 280, EVE 304, and GF 280 LiFePo4 battery cells, and equipped with Seplos BMS 3.0, which can control the active balancer switch on or off according to the voltage deviation. Features Built-in battery management system. CAN/RS485*2 inverter communication. Compatible cell information details.

What are cellblock cabinets made of?

Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels. CellBlockEX provides both insulation and fire-suppression, to keep your assets and personnel safe from hazardous lithium-ion battery fires.

Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.
