

SolarMax Energy Systems

40-foot container photovoltaic base station

Overview

What is a 40' shipping container home with solar panels?

If you're dreaming of a sustainable lifestyle, our 40' Shipping Container Home with Solar Panels is perfect for you. Built from recycled steel, this home is both durable and eco-friendly. With its own solar panels, you can live completely off the grid and reduce your carbon footprint.

What is a 40' off grid container home with solar panels?

The solar panels provide power for your lighting, appliances, and heating needs. You can also collect rainwater for your needs, which makes this home an ideal choice for those who want to live sustainably and self-sufficiently. Learn more about the specs of your 40' off grid container home with solar panels below:.

What is a 20 & 40 ft shipping container?

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. The durable container design is completely waterproof, protects you and your equipment from the elements and any potential security threats.

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing energy demands.

Can solar panels be placed on a container roof?

We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable

Ground Mount. Check out the Scalable Ground Mount page + manual. How will the container be delivered to my location?
