4v 6ah lithium battery pack

Overview

What is a 6V 4Ah rechargeable battery?

A 6V 4Ah rechargeable battery is a portable and sealed rechargeable battery that you can use whenever you need it. It features a constant voltage charge for maximum convenience and ease of use. This battery is maintenance free and spill proof for both safety and to accommodate your busy lifestyle.

Can a 6V lithium battery be used in water?

Do not use the 6V lithium battery pack in places with high humidity or where it may be exposed to wet. Do not modify or disassemble the 6 volt LiFePO₄ battery. Do not throw the 6V power bank into fire or water. Do not reverse the polarity of the battery pack.

Can a 6V lithium phosphate battery be charged in series?

⚠Warning 1⚠: The battery is a 6V lithium iron phosphate battery and can only be charged using a professional DC 7.3V lithium iron phosphate charger!

⚠Warning 2⚠: The battery cannot be connected in series!.

Can a 6V lithium iron phosphate battery be used in parallel?

Warning: To prevent battery damage, do not use it in series or parallel. And it should use a LiFePO₄ charger for charging. 6V lithium iron phosphate batteries are mainly used to replace 6V lead-acid batteries.

What should you not do with a 6 volt LiFePO₄ battery?

Do not modify or disassemble the 6 volt LiFePO₄ battery. Do not throw the 6V power bank into fire or water. Do not reverse the polarity of the battery pack. Compared with lead-acid battery, the LiFePO₄ battery has higher capacity, lighter and much better.

What happens if a 6V battery is over-discharged?

Over-discharging may causes loss of cell performance, characteristics, or battery functions. Do not use the 6V lithium battery pack in places with high humidity or where it may be exposed to wet. Do not modify or disassemble the 6 volt LiFePO4 battery. Do not throw the 6V power bank into fire or water.
