

SolarMax Energy Systems

500 kilowatt-hour energy storage device

Overview

What is a Megatrons 500KW battery energy storage solution?

MEGATRONS 500kW Battery Energy Storage Solution is the ideal fit for commercial applications. Utilizing Tier 1 LFP battery cells, each commercial BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.

What is the best energy storage system?

The IP54-rated enclosure ensures dependable operation even in harsh environments. With its robust features and exceptional scalability, the BESS Container 500kW 2MWh 40FT Energy Storage System Solution is the ideal choice for secure, efficient, and large-scale energy management.

What voltages are available for a battery energy storage system?

All system systems are offered with either 400VAC or 480VAC 3 phase interconnect voltages. Each commercial and industrial battery energy storage system includes Lithium Iron Phosphate (LiFePO₄) battery packs connected in high voltage DC configurations.

500 kilowatt-hour energy storage device

Battery Energy Storage System (BESS)

BESS is a battery energy storage system with inverters, battery, cooling, output transformer, safety features and controls. Helping to minimize energy costs, it ...
