

## SolarMax Energy Systems

# 500kw inverter selection

**ESS**

## Overview

---

What is the smallest 500 kW inverter?

With high efficiency and robust design, TMEIC can significantly maximize array performance and uptime. This advanced inverter design significantly reduces size, achieving the smallest 500 kW inverter. The SOLAR WARE 500 advanced multilevel inverter uses a new circuit topology to create 3 output voltage levels.

What is a solar Ware 500 inverter?

The SOLAR WARE 500 is an advanced multilevel inverter system offering up to 500kW, with an operating range of 320 ~ 600 V. SOLAR WARE 500 operates at 97.7% maximum efficiency. With high efficiency and robust design, TMEIC can significantly maximize array performance and uptime.

Which solar inverters are suitable for multi-megawatt power plants?

The inverters are available from 100 kW up to 500 kW, and are optimized for cost-efficient multi-megawatt power plants. The ABB solar inverters have been developed on the basis of decades of experience in the industry and proven technology platform.

How much does a 500 kW solar system cost?

Buy the lowest cost 500 kW solar kit priced from \$1.05 per watt with the latest, most powerful solar panels, inverters and mounting. For home or business, save 30% with a solar tax credit. Sunwatts has a big selection of affordable 500 kW PV systems for sale.

How can pvmars provide a complete 500KW solar system solution?

The premise of providing a complete 500kw solar system solution requires: You only need to submit load (electrical equipment) information, pictures/drawings of the installation location, output voltage range, and other data. PVMARS's engineering team can provide a complete solar energy

storage system (off-grid or mini-grid solution).

Do I need additional accessories to benefit from A 500KW solar system?

You don't need additional accessories to benefit from it. The premise of providing a complete 500kw solar system solution requires: You only need to submit load (electrical equipment) information, pictures/drawings of the installation location, output voltage range, and other data.

## 500kw inverter selection

 **Efficient**  
Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 1000V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Oversizing
- Max. PV Input Current 15A, Compatible with High Power Modules

 **Intelligent**  
Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPDs: prevent lightning damage
- Battery Reverse Connection Protection

 **Flexible**  
Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

## Feasibility for Setting up 500kW Solar Rooftop System

Solar array and inverter capacity may marginally deviate based on module

efficiency and selection of inverter. The balance of system equipment's ...
