

## SolarMax Energy Systems

# 50A lithium iron phosphate battery pack

## Overview

---

What is a lithium iron phosphate battery?

ECO-WORTHY LiFePO<sub>4</sub> 12V Lithium Iron Phosphate Battery has twice the power, half the weight, and lasts 8 times longer than a sealed lead acid battery, no maintenance, extremely safe and very low toxicity for environment.

How much does a 50Ah lithium battery weigh?

[Lightweight Design] The 50Ah lithium battery features a lightweight design, weighing only 12.65 pounds, significantly lighter than lead-acid batteries. It is only 42% the weight of a 12V 50Ah lead-acid battery (around 30 pounds).

How many times can a lithium phosphate battery be recharged?

[Long lifetime] ECO-WORTHY lithium iron phosphate battery (LiFePO<sub>4</sub>) can be recharged 4000+ times in a deep cycle to achieve a longer cycle life. Higher than lead-acid batteries (generally only 300-400 cycles can be charged). ECO-WORTHY batteries can maintain 80% capacity after 3000 cycles, ensuring long-term reliability and cost-effectiveness.

How do you charge a LiFePO<sub>4</sub> battery?

[3 Ways to Charge] ECO-WORTHY 12V 50Ah LiFePO<sub>4</sub> Battery Supports three charging methods: Charger, Solar Panel with Charge Controller, and Generator. A 10A charger only takes 5 hours to charge fully, with a Charging efficiency of over 90%, while lead-acid batteries usually charge between 70-85%.
