# 5G China Mobile Base Station in 2025

## Overview

---

How many 5G base stations will China have in 2025?

China's Ministry of Industry and Information Technology (MIIT) unveiled plans to more than triple the number of 5G base stations over the next four years, targeting a total of 3.64 million by end-2025, local newspaper China Daily reported. Under this plan, China aims to have 26 5G base stations for every 10,000 people by the end of 2025.

How many 5G base stations are there in 2024?

"Accumulatively, there were over 2.4 million 5G base stations put into use [at the end of 2024]. We have built the world's first large-scale commercial 5G-A network, with RedCap covering all cities nationwide and gigabit broadband covering 480 million households," said China Mobile in its annual report.

Where did China build a 5G signal base in 2021?

In April 2021, according to the Chinese military's official website, at an elevation of 5,374 meters, China had built a 5G signal base at the Ganbala radar station in Tibet's remote Himalayan region, which is the world's highest manually operated radar station.

How many 5G base stations are there in the world?

In addition, a total of 819,000 5G base stations have been built by these three telecom giants, accounting for 70% of the world's total. As China has played a leading role in 5G technology, its 5G development has extraordinary significance for other countries.

Will China build the world's largest 5G network by 2025?

Meanwhile, Wang Zhiqin, deputy head of the China Academy of Information and Communications Technology, a government think tank, said China will have built the world's largest and most extensive Standalone 5G network by the end of 2025.

What are the prospects of the 5G base station market?

Because of the increased need for high-speed data with low latency, the 5G base station market is likely to develop significantly throughout the forecast period. Furthermore, the growth of the 5G IoT ecosystem and vital communication services is expected to provide lucrative prospects for the 5G base station market to expand.
