

## SolarMax Energy Systems

# 60W solar panel battery pack

## Overview

---

What is a 60W solar panel?

Its highly sensitive light source can charge your mobile power supply even under natural light or cloudy conditions. Providing a more stable output of up to 18V, the 60W solar panel is perfect for a variety of devices and applications. The solar panel is perfect for travelling or going on trips in the wilderness where portable power is needed.

What is a solar panel battery pack?

A solar panel battery pack is a package that makes up the solar power storage in a solar system. The first items in the pack are the solar panels that help to collect sunlight energy and change it into DC electricity.

Can I use an anker solar panel with an XT60 connector?

Only use solar panels between 11 to 28V and with an XT60 connector. We recommend 100W Anker Solar Panel. This product is not compatible with Anker SOLIX PS30 (or other 5V~3A USB-C panels), PS200, PS400.
