Overview

What is a 14500 Lithium battery?

Part 1. What is the 14500 lithium battery?

A 14500 li-ion battery is a compact, cylindrical lithium-ion rechargeable battery. Its name reflects its dimensions: This standardized size makes it comparable to AA batteries, but the 14500 stands out with a nominal voltage of 3.7V, significantly higher than the 1.5V of alkaline AA batteries.

What are the best 14500 battery brands?

Here are some of the most popular 14500 battery brands to consider: Ufine Battery: Renowned for custom lithium solutions. Panasonic: High-capacity, reliable performance. Samsung: Consistent quality and durability. Efest: Ideal for flashlight enthusiasts. Nitecore: Excellent protected batteries. Keeppower: High-quality and long-lasting.

How long does a 14500 Lithium battery last?

Generally, 14500 lithium batteries can last between 300 to 500 charge cycles. This means you can recharge the battery 300 to 500 times before its capacity drops significantly. Factors Affecting Lifespan Usage: High-drain devices will deplete the battery faster, reducing the number of charge cycles.

What is a SAFT LS14500 battery size?

Saft LS14500 Specification Sheet Saft LS14500 Material Safety Data Sheet / Article Information Sheet Saft Lithium Battery Handbook and Application Manual AA 3.6 2.6Ah Bobbin Typically up to 250mA 50mA 0.25A 14.55x50.28mm (0.575x1.98in) 17g (0.6oz) approx. 0.7g Flat Contact (button-top) -60°C to 85°C (-76°F to 185°F) +30°C (+86°F) max
