

SolarMax Energy Systems

750V DC to 380V AC inverter

Overview

How much power does a solar pump inverter have?

1.5kW solar pump inverter for sale, with AC 3.8A output current at 3-phase, 380V, DC voltage range (280V, 750V), and recommended DC MPPT range (350V, 750V). With IP20 protection class, the solar pump inverter works at (-10°C, 40°C). The solar pump inverter supports AC and DC input, the power factor is >0.99, and the humidity is less than 95%RH.

What is a 4 kW solar pump inverter?

4 kW solar pump inverter with MPPT tracking technology for sale, AC output current 9A at 3-phase, DC voltage range (280V, 750V). Output frequency 0~400 (Hz) and power factor >0.99. The pump inverter supports AC and DC input, storage temperature (-20°C, 60°C) and ambient temperature (-10°C, 40°C).

Which solar water pump inverter is available online?

The 5.5kW three-phase AC 220V solar pump inverter is now available online. This solar pumping inverter integrates advanced MPPT tracking for precise voltage detection and optimal performance. The solar water pumping system supports AC and DC input, with a DC voltage range of 300V~380V and a power factor >0.99.

Can I modify the ods-750 DC/AC inverter?

At Premium we offer the possibility to modify the ODS-750 DC/AC inverter to each project needs to make it the best solution for each application. Flexibility and customization is our standard, so don't hesitate to contact us to tell us about your project. ACB-3000 Redudancy static transfer switch.

What is an ODS 750 inverter?

The ODS-750 is a sine wave, single-phase DC/AC inverter. The series offers 450W-750W power and is available with 120Vac or 230Vac output and a wide

range of input voltages (12, 24, 36, 48, 72, and 110Vdc). With a robust design, it fits in a wide range of industrial applications that require high reliability with a compact design.

What is a 22 kW pump inverter?

The 22 kW pump inverter is expertly insulated, dust-proof, and moisture-proof, ensuring all users' stable, safe, and reliable operation. The robust casing protects internal circuits and electronic components, ensuring the inverter's safety, stability, and reliability, effectively extending the product life. Max. DC voltage

750V DC to 380V AC inverter

Three Phase Solar Pump Inverter, MPPT Solar VFD, DC 350~ ...

Designed for compatibility with both DC solar input (350~ 750V) and AC backup (380V -460V 3-phase), this solar inverter ensures uninterrupted water delivery regardless of solar conditions.
