

SolarMax Energy Systems

African Government Energy Storage Power Station

Overview

Will Eskom open Africa's largest battery energy storage facility?

Read: Eskom opens Africa's largest battery energy storage facility According to the department, the two developments represent a total investment of R5.3 billion. Two of the three other preferred bidders in this procurement round are expected to reach commercial close by the end of November, and the other early next year.

What is the energy storage capacity of the Ingula PSS?

Straddling the border of South Africa's KwaZulu-Natal and Free State provinces, the Ingula PSS has an energy storage capacity of 21 GWh, or 15.8 electricity generating hours.

How much does the African Development Bank project cost?

The cost of the project is approximately R11 billion and will be funded through concessional loans from the World Bank, African Development Bank and the New Development Bank.
