Albania Smart Energy Storage Battery

Overview

Imagine powering a Kavajë Street cafe for 3 days on a battery the size of a furgon steering wheel! Tirana Regional Hospital's new vanadium flow system provides 12-hour backup with 94% efficiency [4]. The secret sauce?

Liquid electrolytes stored in repurposed fuel tanks from retired buses. Will Albania build its first lithium ion battery plant?

Chief Executive Officer Bruno Papaj said the firm signed a memorandum of understanding with an Indian investor on the construction of Albania's first lithium ion battery plant. The facility is planned to come online within two years, with 100 MW in annual capacity.

Why does Tirana need Vega Solar?

Furthermore, the country is exposed to drought and often turns to emergency imports. Tirana-based Vega Solar, which develops, installs and maintains rooftop solar power plants, saw an opportunity to contribute to diversification with battery energy storage systems.

Does Albania have a hydropower plant?

Hydropower makes up almost the entire domestic output in Albania, which helps balancing to a point, but it has no pumped storage hydropower plants. Furthermore, the country is exposed to drought and often turns to emergency imports.
