

## SolarMax Energy Systems

# All-vanadium redox flow battery energy storage container

## Overview

---

The invention discloses a container type all-vanadium redox flow battery energy storage system, and relates to the technical field of redox flow batteries, the container type all-vanadium redox flow battery energy storage system comprises a container body and a plurality of electric piles installed in the container body, and further comprises two electrolyte storage tanks installed on the rear side of the container body, and liquid guide pipes are installed between the electrolyte storage tanks and the electric piles.
