Are there any restrictions on photovoltaic inverters in Cape Verde

Overview

Does Cape Verde have access to electricity?

Cape Verde has achieved a national coverage of 95 % in accessing electricity as each island has its own local power station running on petroleum products and its own electrical grid.

Do I need a voltage converter in Cape Verde?

You don't need a voltage converter on Cape Verde. To be sure, check the label on your devices. Some devices never need a converter. If the label states 'INPUT: 100-240V, 50/60 Hz' the device can be used in every country in the world. This is common for devices with chargers like tablets/laptops, photo cameras, cell phones, toothbrushes, etc.

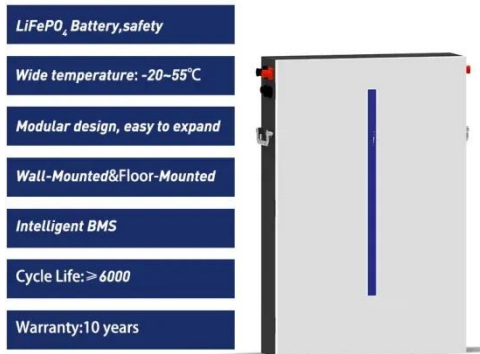

What is the Cabo Verde national energy policy?

In 2008, the Council of Ministers approved the Cabo Verde National Energy Policy which sets out the overarching vision of achieving long-term independence from fossil fuels by promoting renewable energies and improving energy efficiency.

Will Cabo Verde reduce its dependence on imported fossil fuels?

The government of Cabo Verde has launched an ambitious plan to further reduce the country's dependence on imported fossil fuels.
