# Azerbaijan power generation container

## Overview

---

Two gas-turbine units with a capacity of 53.5 MW each at Baku thermal power station, funded by the German bank – Bayerische Landesbank Girozentrale, and a 400MW steam gas plant at the Shimal power plant at the expense of the Japanese International Cooperation Bank's loan were commissioned in 2002. Overview Two-thirds of energy in Azerbaijan comes from and almost a third from . is , much of which is exported. Most electricity is generated by Energy in t.

In 1847, Azerbaijan became the site of the world's first industrially drilled oil well. By 1899, Azerbaijan produced half of the volume of the world's oil. The Araz hydroelectric power station with a total capaci.

- Production: - 931,990 bbl/d (148,175 m /d) (2008)• Consumption: - 160,000 bbl/d (25,000 m /d) (2007)From 1987 to 1993, production decreased from 13.8.
