BYD Energy Storage Power Station in Morocco

Overview

Will BYD Build electric vehicles in Morocco?

Despite the signing of a partnership in the presence of Mohammed VI in 2017, the major Chinese group BYD has not carried out its plans to set up a series of electric vehicle production plants in Morocco.

Why did BYD stop making electric buses in Morocco?

Since it believes it will be unable to sell a sufficient number of buses in Morocco, Chinese electric vehicle manufacturer BYD has temporarily halted its plans to set up a series of production plants in Tanger Tech city.

Where is BYD Auto building a battery-powered car?

LOG IN > BYD Auto Co. signed an agreement to open an assembly plant in Morocco to build battery-powered passenger cars, buses and trucks. The factory will be located in Mohamed VI Tangier Tech City, which is part of a new project between China and Morocco to create what some are calling a North African Silicon Valley.

Does BYD have a switch to Morocco?

From BYD's point of view, however, this switch is taking place too slowly. Alsa Maroc, the Moroccan subsidiary of Spain's Alsa group, headed by Alberto Pérez, ordered some buses, which began to be brought into service, mainly in Marrakesh and Rabat, in March 2022.

Did BYD Build an electric car plant?

In 2017, plans were also announced to build an electric automobile production plant but, again, this project was never realised. To make up for the absence of the new plant, however, BYD set up a partnership with leading Moroccan automobile distributor Auto Nejma.

Is BYD launching a new EV in Europe?

Sources at BYD Europe confirmed plans to localize production of the best-selling Dolphin and Atto 3 models, bolstering the company's international presence. Additionally, BYD has revised its strategy for the Seagull, a compact EV, likely in response to localized market demand.
