

SolarMax Energy Systems

Bahamas Power Plant Wind Power Base Station Manufacturer

Overview

How will Wärtsilä's gems Digital Energy Platform help the Bahamas?

The combination of flexible power generation and energy storage utilising Wärtsilä's unique GEMS Digital Energy Platform will support the Government of the Bahamas' plans to increase its share of renewable sources, notably solar, by 30 percent by 2030. Renewables hold the key to decarbonising the energy sector.

Why should we invest in natural gas in the Bahamas?

Our proactive investment in state-of-the-art technologies will improve grid stability and reliability in The Bahamas, and help meet the growing energy demand at a lower price point for electricity. Use of natural gas will contribute to decarbonizing The Bahamas, reducing over 139 tons of CO₂ per year.

How can natural gas help decarbonize the Bahamas?

Use of natural gas will contribute to decarbonizing The Bahamas, reducing over 139 tons of CO₂ per year. Natural gas availability for commercial vehicles will further reduce emissions and pollution.
