

SolarMax Energy Systems

Bahamas wind solar storage transmission and photovoltaic supply

Overview

Who does Bahamas solar work with?

Bahamas Solar works with a number of the leading solar manufacturers and distributors across the globe. Going solar has never been easier. Here at Bahama Solar we take care of your project from start to finish. Offering full turn key systems for all residential and commercial operations. Serving all the Bahamas, from Nassau to the out islands.

How will a new energy system affect the Bahamas?

Comprehensive upgrades to our country's transmission and distribution infrastructure, and switching from heavy and diesel fuels to solar power and natural gas, will create new efficiencies and reduce the price of electricity in The Bahamas. But it won't happen overnight – it will take time to upgrade our grid and to integrate cleaner energy.

Will the Bahamas build utility-scale solar power?

For the first time, The Bahamas is on the path to building utility-scale solar power across our islands. Large photovoltaic (PV) solar arrays will capture the energy from the sun and send it to our country's electricity grid. What steps are required as The Bahamas moves forward with utility-scale solar power, and what are the costs?

.

How does a comprehensive energy policy work in the Bahamas?

Our comprehensive energy policies work together to modernize our system and bring electricity prices down in The Bahamas. 70MW of solar power and 35MW of Battery Energy Storage Systems will be integrated into the existing grid.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

What is the focus of Island Solar?

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean.

Bahamas wind solar storage transmission and photovoltaic supply

Bahamas Energy & Solar Supplies , Solar & Renewable Energy

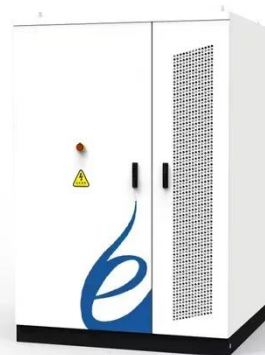

We use the latest inverter technology and highest efficiency solar panels to give you the best return on investment possible and a system that will work for at least 25 years.
