

SolarMax Energy Systems

Bangladesh Container Energy Storage Station BESS Company

Overview

How much storage capacity will be provided by Bess system?

The BESS system, which will be deployed in four Power Distribution Societies (PBSs)-Dhaka PBS-1, Narsingdi PBS-1, Mymensingh PBS-2, and Kishoreganj PBS-will deliver 8 MW of storage capacity in each PBS, totaling 32 MW as a pilot basis Project.

What is Bess & how will it impact Bangladesh?

With Bangladesh's electricity demand expected to reach 32 gigawatts (GW) by 2030, the introduction of BESS is seen as a crucial advancement for modernizing and stabilizing the national power grid. BREB, having nearly achieved universal electrification, will use this project to provide more reliable power, especially during peak demand periods.

What can be done about grid connected energy storage in Bangla-Desh?

Limited experience and knowledge of grid connected energy storage in Bangladesh. Early-stage pilot programmes such as the planned 2MW grid connected BESS funded by the Asian Development Bank (ADB) would further support capacity building and knowledge transfer. 3.3.

Is energy storage regulated in Bangladesh?

For example, the Bangladesh Energy Regulatory Commission (BERC) Licensing Regulations 2006 do not include rules for licensing of energy storage technologies (except for pumped storage). The institutional framework for the procurement and deployment of such projects is well established in the country.

How much energy storage does Bangla-Desh need?

120GW of RE generation. If a similar ratio were to be considered for Bangladesh's short-term RE aspirations (~1GW in the next three years), the resulting energy storage requirements would amount to 250MW/ 500MWh of

energy storage.

Who is deploying EV charging stations in Bangladesh?

Various power sector agencies including Bangladesh Rural Electrification Board (BREB) and West Zone Power Distribution Company Limited (WZPDCL) have already deployed EV charging stations, as have various private investors (including SolShare).
