## Overview

---

Can energy storage be used in Bangladesh?

Concluded in May 2023, the assignment assessed available energy storage technologies, evaluated the role of energy storage in the current grid conditions, identified potential storage locations, analysed energy storage requirements under variable renewable energy (VRE) integration, and developed a roadmap for energy storage in Bangladesh.

Who is deploying EV charging stations in Bangladesh?

Various power sector agencies including Bangladesh Rural Electrification Board (BREB) and West Zone Power Distribution Company Limited (WZPDCL) have already deployed EV charging stations, as have various private investors (including SolShare).

What's in the Bangladesh Power Sector Roadmap?

The roadmap highlights specific use-cases for consideration in the Bangladesh power sector over three different future time horizons. It also includes a summary of indicative policy and regulation actions and interventions that may be considered to enable the deployment of energy storage within the defined time horizons.

How many electric 3-wheelers are there in Bangladesh?

Current estimates for electric 3-wheel-ers in Bangladesh vary between 2-5 million. Assessments carried out as a part of Deliverable 3 illustrated the commercial and economic case for the de-ployment of ~0.6MW/ 2.4MWh of BESS to support the charging of 500 vehicles. Assuming 50% of all vehicles are charged in garages, the immediate BESS.

What is the financial model for EV-Bess deployment in Bangladesh?

The current financial model for EV-BESS deploy-ment in Bangladesh relies on a service payment to EV-BESS projects. This payment model does not create

bankable projects due to the lack of any long-term fixed revenue streams. However, additional commercial revenue streams may be leveraged to improve commercial viability of these projects.

Can distribution companies provide electricity solutions for displaced communities in Bangladesh?

There are no service obligations for distribution companies to provide electricity solutions for displaced communities in Bangladesh. Distribution companies and non-governmental organisations (NGOs) (in the absence of service area obligations) would be key institutional stakeholders for the deployment of this application.
