SolarMax Energy Systems

Base station outdoor installation

Overview

How do I set up a Wyze base station?

In the Wyze app, tap on your Wyze Base Station. Tap on the Settings gear on the top right. Tap Device Info > Wi-Fi Network. Follow the on-screen steps to finish the setup. Now that your Wyze Base Station is all set up, it's time to add your Wyze Cam Outdoor. Move on to the next article, Wyze Cam Outdoor Setup Guide.

How do you mount a base station?

You can also use tripods, light stands, or cargo poles when mounting the base stations, or even place it on stable book cases. Just avoid using unstable mounting solutions or surfaces that are prone to vibration. Adjust the base stations so that the front panels are facing toward the center of the play area.

How should a base station antenna be installed?

The hardware installation guidelines are limited but important for reliable base station performance. The base station antenna should be installed in open sky conditions, away from external influences that hinder the direct line of sight between the antenna and the GNSS satellites.

Where should an antenna be installed?

In general, this means that the ideal antenna installation is near the centre of the work area. For larger work areas (several 10's of km's), it is advised to place several base stations for optimal performance and easy selection of the nearest base station.

Can I use Wyze base station on a Wi-Fi Connection?

Once it's set up, you can use Wyze Base Station on a Wi-Fi connection - no need for a router. To do this: In the Wyze app, tap on your Wyze Base Station. Tap on the Settings gear on the top right. Tap Device Info > Change Connection. You'll see one of the following screens: Select your network.

SOLAR PRO.

What is a Multitech IP67 base station?

The MultiTech Conduit® IP67 Base Station is a ruggedized IoT gateway solution, specifically designed for outdoor LoRa® public or private network deployments. The highly scalable and certified Conduit IP67 gateway is capable of resisting the harshest environmental factors including moisture, dust, wind, rain, snow and extreme heat.
