

## SolarMax Energy Systems

# Battery Cabinet and System Safety Requirements

## Overview

---

What are the safety requirements related to batteries & Battery rooms?

Employers must consider exposure to these hazards when developing safe work practices and selecting personal protective equipment (PPE). That is where Article 320, Safety Requirements Related to Batteries and Battery Rooms comes in.

What are the requirements for a battery storage system?

Ventilation shall be provided to ensure diffusion of the gases from the battery to prevent the accumulation of an explosive mixture. Racks and trays shall be substantial and treated to be resistant to the electrolyte. Floors shall be of an acid resistant construction or be protected from acid accumulations.

What are the requirements for a battery handling facility?

Floors shall be of acid resistant construction unless protected from acid accumulations. Face shields, aprons, and rubber gloves shall be provided for workers handling acids or batteries. Facilities for quick drenching of the eyes and body shall be provided within 25 feet (7.62 m) of battery handling areas.

What is a battery room safety course?

This course describes the hazards associated with batteries and highlights those safety features that must be taken into consideration when designing, constructing and fitting out a battery room. It provides the HVAC designer the information related to cost effective ventilation.

What are the requirements for a stationary battery ventilation system?

Ventilation systems for stationary batteries must address human health and safety, fire safety, equipment reliability and safety, as well as human comfort. The ventilation system must prevent the accumulation of hydrogen pockets greater than 1% concentration.

What are OSHA regulations for battery handling and storage?

OSHA sets forth regulations that ensure worker safety during battery handling and storage. These include requirements for personal protective equipment and proper training for employees working with batteries.
