# Battery cabinet 6 25MWh is better

## Overview

---

How much power does a hithium battery have?

Hithium's Lithium-ion battery energy storage system, known as ∞Power, has a capacity of 6.25 MWh. It can be configured for either two or four-hour durations. In a 2-hour configuration, the battery cell is 587 Ah. While in a 4-hour scenario, the cell reaches 1175 Ah.

What is the capacity of a hithium Bess battery cell?

In a 2-hour configuration, the battery cell is 587 Ah. While in a 4-hour scenario, the cell reaches 1175 Ah. The highest capacity lithium iron phosphate (LFP) battery cell yet, the 1175 Ah model is on track for mass production. In preparation, Hithium plans to begin global delivery of the 6.25 MWh BESS by the second quarter of 2025.

When will Power Power Power 625 MWh 2h/4h Bess start?

Now, the manufacturer says that the global delivery of ∞Power 6.25MWh 2h/4h BESS will begin already in Q2 2025, signalling a faster than expected shift to large capacity cells.

Can CATL prevent battery degradation?

The absence of degradation in the first five years might appear more as a marketing strategy than a true technological innovation. However, it's possible that CATL has found a key to prevent battery degradation. Behind the facade, the reality could be different: a concealed over-sizing.
