

## SolarMax Energy Systems

# Battery cabinet installation interface design

### Product Details

## Overview

---

How do I install a battery cabinet?

Between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location. If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet.

What is a battery cabinet (IBC) system?

Battery Cabinet (IBC) systems are housed in single free-standing cabinets. Model IBC-L with a single battery voltage range is available to meet application runtime needs. Up to four cabinets may be installed to further extend battery runtimes. The cabinets match the UPS cabinet in style.

How do I install the 9395 model IBC-L Battery Cabinet?

serve a preferred startup date. 1.1 Configuration and installation features The 9395 Model IBC-L battery cabinet is designed to be installed in a standalone configuration using up to two battery cabinets. Power wiring is installed externally between each battery cabinet and the UPS or battery disconnect using conduit. Batt.

How is a battery system installed?

installed on a level floor suitable for computer or electronic equipment. Each cabinet in the battery system is placed in its correct location. A cabinet ground g/mounting kit is installed between any cabinets that are bolted together. A ground wire is installed between all cabinets. All conduits and cables are properly routed to the battery.

What is a battery cabinet?

by current. The battery cabinet is installed in a standalone configuration. The term standalone refers to battery cabinets that may be installed adjacent to

the UPS or in a separate location, are wired with external customer-supplied conduit and wiring, and may use the battery cabinet breaker as the battery isolation device or a sin.

How to connect ups CABI & Battery Cabinet?

ing between the UPS and battery cabinet is to be provided by the customer. When installing external interface wiring (for example, battery breaker shunt trip) to the battery cabinet interface terminals, conduit must be installed between the battery cabinets and the UPS cabi
