

SolarMax Energy Systems

Battery cabinet maximum temperature 100KWh

Overview

What is the icon 100kW 215kwh battery storage system?

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety system all housed within a single outdoor rated IP55 cabinet.

How many battery cells are in a battery cabinet?

Each battery cabinet is with 240 battery cells in series with contactor, detective unit, sampling line, battery management systems, fuse, etc. BESS employs a sophisticated, multilevel battery management system (BMS) for system monitoring and control. Each battery management system including:.

How many temperature detectors does a battery module have?

internally to prevent short circuit to ensure the electrical safety of the battery module. Each battery module has 16 temperature detectors. Power Conditioning System (SP100ELL) is a bi-directional conversion system to convert power between static energy storage and grid or load with add-on features of power quality management.
