

## SolarMax Energy Systems

# Battery outdoor power supply configuration

## Overview

---

Do I need a dual battery system for camping?

So you may need to consider a dual battery system to meet your camping power needs. \*\*UPDATE 2024: A new 135ah (1620watt) Lithium Dual Purpose Starting and Deep Cycle Battery has been released that is a drop in replacement for your vehicle's starting battery.

How do I choose a dual battery system?

So determine your need (in amp-hours), pick a battery that meets that need, then make sure the dimensions of that battery (or batteries) can be fit into your planned overland vehicle, truck camper, car camping setup, etc. before moving forward with a particular dual battery system.

Do I need more power than my own dual battery system?

You may require more or less power than our own personal dual battery system depending on how many devices you need to power and how much you use those devices while camping. Just keep in mind: The more devices you bring camping, the more power you'll need. And the more power you need, the more expensive your dual battery setup will become.
