### Utility-Scale ESS solutions

## Battery outdoor power supply connected to water pump inverter

### Seeking advice for battery backup on well pump

Can anyone point me to a resource for establishing an automatic transfer from grid power to solar charged batteries during a power outage? I assume there is a way to do this.

Application scenarios of energy storage battery products

## What Kind Of Solar Inverters Can Drive a Water Pump?

Simply, the solar panels charge the batteries with the controller. Then, the inverter transforms the stored direct

current from the batteries to the AC to run the water pump.

## Using an inverter as a UPS (automating power supply to a sump pump)

My sump pump runs on 120v AC power. We don't lose power often (1-2x per year), but if that were to happen during a rainstorm, my basement would flood with water.
