

SolarMax Energy Systems

Belgium s energy storage export share

Overview

How is the energy sector shaped in Belgium?

The energy sector in Belgium is shaped by the policies of its national and regional governments, as well as the European Union. The monitoring of the electricity and natural gas market happens on three regional levels, the Brussels-capital region, the Flemish region, and the Walloon region.

How many energy storage projects are there in Belgium?

A quick look at the European Energy Storage Inventory public database hosted by the European Commission (EC) JRC Smart Electricity Systems initiative using data from Wood Mackenzie highlights 21 operational energy storage projects in the Netherlands and only 12 in Belgium.

Is Belgium ripe for battery storage development?

Belgium and its neighbour, the Netherlands, have been talked about by industry and analysts as being ripe for battery storage development.

Are merchant-exposed projects sourcing project finance in Belgium?

“We have seen similar or even much bigger merchant-exposed projects sourcing a large share of their financing through project finance in the Netherlands recently, but Belgium is a bit more complex market,” BStor’s Pierre Bayart said.

What projects are being built in Belgium?

The trio’s consortium has previously worked on ESTOR-LUX (10MW/20MWh), Belgium’s first high-voltage grid-connected BESS, which went online at the end of 2021. It is currently also working on D-STOR, a 50MW/140MWh project for which financial close was achieved in Q3 2024, and construction began earlier this year.
