Belize cheap monocrystalline double-glass panels

Overview

Is tempered glass available in Belize?

Peters Glass Shop is proud to announce that tempered glass is now available in Belize. Tempered glass represents a unique challenge to discerning buyers, as all cutting and modification of the glass must be completed prior to the tempering process.

Who is a glass shop in Belize?

Belize's source for all things Glass. A window to your world. We are a full service glass shop serving the residential and commercial needs of Belize. Our main office and shop is located at Mile 53 of the Hummingbird Hwy in Belmopan, Belize. Our well qualified staff has been serving up custom glass, windows, doors and installations for many years.

Where can I find custom glass & windows in Belize?

Our main office and shop is located at Mile 53 of the Hummingbird Hwy in Belmopan, Belize. Our well qualified staff has been serving up custom glass, windows, doors and installations for many years. We pride ourselves in being fully dedicated and committed to the work we do. Our attention to detail is precise and delicate as the glass itself.

What is a replacement double glazed glass panel?

Replacement Double Glazed Glass Panels are ideal for cutting costs, while also being better for the environment. This product consists of two panes of tempered glass separated by a spacer. The space between the two panes of glass is filled with air. These are most often used in residential window applications.

What are double-pane insulated glass panels?

Primarily used in residential window applications, the technology behind these insulated glass panels for exterior doors and windows ensures energy

efficiency and improved insulation. Our double-pane insulated glass panels are custom-manufactured. These double-insulated glass panels are designed to upgrade existing windows in your home.

Are double glazed insulated glass panels safe?

Originally designed to protect homes from extreme weather conditions, double-glazed insulated glass panels offer a reliable shield against the elements. Application of Low-E coatings to insulated glass panels to block harmful ultraviolet rays will protect your furniture and flooring from fading and your skin from sun damage.
