Benin Solar Power System

Overview

Illoulofin Solar Power Station, is a 50 megawatts (67,000 hp) power plant in , whose first 25 MW was commissioned on 19 July 2022, and the next 25 MW is under construction and is expected to come online in 2025. The solar farm is under development by the , with funding from the (EU), the (AFD) and the Beninese Electricity Company (SBE).

Benin is moving forward with a major renewable energy initiative through a partnership between Axian Energy, a pan-African developer, and Sika Capital Bénin. The two companies have announced the launch of a project to construct four solar power plants with a combined capacity of 50 megawatts (MWac).
