# Bms battery replacement

## Overview

---

How to test the BMS of an eBike battery, then how to find a replacement on eBay, and how to install it using simple home tools.

What is a BMS in an e-bike battery?

The main role of the BMS in an e-bike's battery is to make sure all the cells of the battery are in balance during charging and discharging. "Cells" of a battery pack are actually cell blocks, made up of multiple 18650 cells in parallel (to give additional current capacity). Each cell is thus the voltage of one battery, which is around 3.6V.

Do You need A BMS to charge a battery?

A BMS is a delicate issue. There are actually people who believe in charging batteries without a BMS, like this guy on YouTube: He makes a lot of good points. Essentially, if you have a charger that can balance all the cells, you don't need to use a BMS for that purpose. Firstly what does a BMS do?

.

Can a new BMS be soldered to a B0 battery?

Note: If your new BMS has a B0 wire and the previous one had none you will have to solder it to the B0 battery nickel strip, there is no work around on that.

What is the most important part of a BMS?

The most important part of a BMS is the size of the battery pack it's rated for. You might know you have one of the following battery pack sizes: 24V, 36V, 48V, or 52V. These are the most common battery pack sizes (36V seems to be the most common out of all of them). The size of the battery pack dictates how many cells you have in the battery.

How do you test a BMS on an e-bike battery?

One trick for testing voltage across the pins of the BMS is that they're often

coated with silicon. You should scrape it away gently before checking the voltage. How Does the BMS of an e-Bike Battery Fail?

A BMS is a delicate issue. There are actually people who believe in charging batteries without a BMS, like this guy on YouTube:.

How much does it cost to replace a BMS?

If it's dead, you can replace it, probably for about \$15-20 of parts (and. a spot welder and some nickel strips). If your BMS is fried, however, you have to buy one online and replace it. The good news is that BMS are easy to get online and not expensive. The bad news is that it can be a bit confusing which one to get!
