

SolarMax Energy Systems

Brazil off-grid 12kw inverter

Overview

What is the best off-grid inverter?

With high output power, advanced safety features, and remote management capabilities, the EG4 12000XP off-grid inverter provides an industry-leading solution that meets all your off-grid energy needs. Engineered for efficiency and durability, this inverter is your best choice for reliable and scalable power.

Does Growatt offer solar inverters?

In addition to solar inverters, Growatt also offers a range of energy storage solutions, including lithium-ion batteries and hybrid inverters. These products allow customers to store excess energy generated by their solar panels and use it when needed, further reducing their reliance on grid power.

Can a solar inverter run off the grid?

Capable of running entirely off the grid or using grid electricity, this inverter is perfect for both residential and commercial setups. Key Features: High Input Voltage (480VDC): Supports high-voltage input, reducing the need for extensive cabling and allowing for up to 24kW PV input without a combiner box.

What is a SNA US 12K inverter?

From its scalable design supporting up to 3 units in parallel to its integrated AC coupling functionality, the SNA US 12K offers unparalleled flexibility for diverse energy needs. With a formidable 12KW power output, this cutting-edge inverter redefines reliability and versatility in energy management.

What is SNA US 12K split-phase off-grid system?

SNA US 12K split-phase off-grid system offers versatile operating modes to meet various energy demands. In grid-connected mode, it optimizes energy usage to reduce electricity bills. In off-grid mode, it ensures continuous power

supply during outages. The hybrid mode seamlessly integrates solar, generator, and grid inputs for maximum efficiency.

How many units can be paralleled with a EG4 inverter?

It can be paralleled with up to 16 units for 192 kW. It's a cost-effective solution for those not requiring grid sellback and with EG4 batteries, provides true whole-home backup. EG4 12000XP: A robust 12kW off-grid inverter with 24kW PV input, 100A bypass, and seamless battery charging for whole-home backup.
