

SolarMax Energy Systems

British 12v photovoltaic panel structure manufacturer

Lithium Solar Generator: S150

Overview

What is PV Cycle?

PV CYCLE is a leading solar panel recycling initiative, ensuring responsible end-of-life management for photovoltaic modules. As a Producer Compliance Scheme, it helps manufacturers, importers, and rebranders meet UK WEEE regulations, facilitating collection and recycling to minimize environmental impact.

Why should you choose a British Solar brand?

Customers are increasingly aware of solar supply chain issues, including links to modern slavery. Offering a British brand with ethical and transparent procurement practices sets you apart, providing customers with high-quality products and confidence in your commitment to integrity.

Are Panasonic evervolt solar panels good?

The Panasonic Evervolt solar panels use heterojunction technology with gapcell connections to minimise electron loss and maximise conversion efficiency. With 410W, these panels have a great power output. These panels also have a good temperature coefficient, meaning they perform very well under intense sun conditions.
