

## SolarMax Energy Systems

# Bulgaria curtain wall photovoltaic industrial park

## Overview

---

Who owns the largest photovoltaic project in Bulgaria?

The 160 MW project is owned by Enery from Austria. It would currently be the largest in the country. Enery, an Austrian company controlled by Three Seas Initiative Investment Fund through Amber Infrastructure, already operates one of the three biggest photovoltaic facilities in Bulgaria.

What is photovoltaic curtain wall?

Photovoltaic Curtain Wall generates energy in the building implementing solar control by filtering effect, avoiding infrared and UV irradiation to the interior.

What is photovoltaic architectural glazing?

Photovoltaic architectural glazing enables buildings to produce extra energy while maintaining their design, functionality, and views. They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment.

What is a curtain wall?

Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels.
