

SolarMax Energy Systems

Chile makes solar photovoltaic panels

Overview

In 2013 the Atacama 1 solar complex was proposed as a 110 MW electric plant (the first in Latin America) and a 100 MW photovoltaic plant. The solar thermal plant will include 17.5 hours of . These technologies complement each other to supply clean and stable energy 24 hours a day. The complex is located in the commune of María Elena, Segund.

Chile makes solar photovoltaic panels

Chile holds first place globally for solar energy consumption

Chile has positioned itself among the countries with the highest levels of solar energy consumption and leads the global ranking of solar energy use.
