

SolarMax Energy Systems

Chile's wind-solar hybrid power generation system

✓ IP65/IP55 OUTDOOR CABINET

✓ WATERPROOF OUTDOOR CABINET

✓ 42U/27U

✓ OUTDOOR BATTERY CABINET

Overview

The \$1.3 billion hybrid facility would combine 1,004 MWp of solar PV, 152 MW of wind generation, and a battery energy storage system (BESS) with 3,831.4 MWh of capacity. The project would connect to the planned 500 kV Llullaillaco switching substation under Chile's 2021 Transmission Expansion Plan.

Chile s wind-solar hybrid power generation system

Our Lifepo4 batteries can beconnected in parallels and in series for larger capacity and voltage.

A Hybrid Model of Solar Wind Power Generation System

Abstract :- This paper presents the applications and therefore the effective use of solar radiation Hybrid Energy systems (SWHES). The future of Energy generation depends on solar power, ...
