How many 5G base stations are there in India?

Citing that the country has built a staggering 4.19 million 5G base stations, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

What is China mobile's 5G partnership with CBN?

Prior to this, the pair had reached a 5G strategic cooperation agreement on Jan. 26 to launch joint construction and sharing of a 700 MHz 5G network, with each party investing half for the new construction, expansion and renovation. Meanwhile, China Mobile will share its 2.6 gigahertz 5G network with CBN for a fee.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.
