

SolarMax Energy Systems

Communication base station wind power energy saving system

Overview

The wind-solar-diesel hybrid power supply system of the communication base station is composed of a wind turbine, a solar cell module, an integrated controller for hybrid energy management for communication, a battery pack and an outdoor incubator for the battery.

Communication base station wind power energy saving system

Wind-solar-storage complementary communication base station energy

A technology for communication base stations and energy-saving systems, applied in the field of energy-saving systems for wind-solar storage communication base stations, can solve the ...
