

**SolarMax Energy Systems**

# **Container Energy Storage ESS Base Station**

## Overview

---

### What is ESS Energy Storage?

ESS Energy Storage, provided by ESS Inc., is a leading supplier of long-duration energy storage solutions since 2011. Ideally suited for C&I, utility, microgrid, and off-grid applications, their products are based on proprietary iron flow batteries, which provide several advantages over other energy storage technologies.

### What is a 40ft containerized battery energy storage system?

AZE's 40Ft containerized battery energy storage system comes in scalable containerized modules ranging from tens of kWh to MWh energy capacities. The solutions offers plug-and-play features that allow rapid installation at low installation costs.

### What is Aze ESS container solution?

AZE's 20Ft or 40Ft ESS container solution gives the flexibilities for customer to deploy the system nearly in any nodes in the grid, supporting the services such as emergency power, new energy stabilizer, energy shifting, load shaving, grid stabilizer. Call for Availability 0086-13858309460.

### Why should you choose ESS for Your Energy BASE project?

ESS has worked closely with leading engineering firms to develop standard, cost-effective design parameters that enable deployment of gigawatt-scale storage. Energy Base projects can be customized to minimize visual impact and deliver up to 300 MWh/acre energy density.

### What makes ESS Energy base unique?

Each Energy Base project leverages ESS' proven core technologies to deliver the power, energy and layout customers need. Its modular architecture and the inherent safety of ESS iron flow technology enable compliance with safety regulations and community guidelines, providing peace of mind for all

stakeholders involved.

How many hours can the energy base deliver?

You can configure the Energy Base to deliver gigawatts of cost-effective energy storage for 8+ hours. The ability to customize power and discharge durations maximizes project flexibility and delivers cost-efficient energy storage.

## Container Energy Storage ESS Base Station
