

SolarMax Energy Systems

Cost price of Finnish solar base station companies

Overview

How much does solar energy cost in Finland?

Off-grid installations equipped with batteries cost between 3,500 euros and 5,000 euros per kilowatt. In Finland, self-consumption of solar energy is exempt from grid charges and electricity taxes (up to a maximum of 800 megawatt hours per year). Companies and municipalities receive subsidies of 24 to 40 percent if they invest in photovoltaics.

Who are the best solar energy companies in Finland?

Fortum: Electricity company. Turn key solar energy systems. Full service chain from site assessment to system delivery and warranties. Green Energy Finland Oy: Turn key solution provider for renewable energy systems. Helen Oy: Electricity company. Construction and operating solar PV-plants.

Why should you choose solar Finland?

Solar Finland and its subsidiaries with strong long-term background are experts in all aspects of solar energy. Our extensive know-how and experience of over 40 years make it possible to develop in different areas making our products and services competitive in the solar energy markets both domestically and abroad.

Is solar irradiation a good idea in Finland?

The annual solar irradiation at least in southern Finland is comparable to Central Europe. The cold weather and the dust-free environment is an advantage, Auvinen points out. This is also confirmed by Matthi Lehtonen, operator an outdoor tracker array (6.2 kilowatts) on a farm in the Helsinki metropolitan area.

How much does a solar generator cost?

According to Auvinen, prices for larger grid-connected solar generators of more than one megawatt fell below 1,000 euros per kilowatt. Rooftop arrays

currently cost between 1,300 and 2,000 euros. Off-grid installations equipped with batteries cost between 3,500 euros and 5,000 euros per kilowatt.
