

SolarMax Energy Systems

Cuban rural photovoltaic panel manufacturers

Overview

Where are the solar panels made in Cuba?

The solar panels used in the project are partly produced by the Cuban Electronic Industry -70 percent of all the solar panels were assembled in Pinar del Río, and 100 percent were installed by the Copextel company ran by the Ministry of Computer Science and Communications (MIC).

How many photovoltaic solar parks are there in Cuba?

Cuba began the construction of 59 photovoltaic solar parks with the idea of reducing dependence on fossil fuels and creating other wastelands in which clean energy is the main resource for electricity consumption. Of these 59 solar parks, it is expected that: 33 are completed within the current year, synchronizing with the national energy system.

Is photovoltaic technology in Cuba a good idea?

Bearing in mind the cost of photovoltaic systems and transport costs to Cuba, rental homes and other private businesses seem to be the ones that are being called on to take advantage of this new opportunity. At least in the beginning. However, the mass use of photovoltaic technology in Cuba is also in the State's best interests.
