

## SolarMax Energy Systems

# Customized price of rooftop photovoltaic panels

## Overview

---

Can you install solar panels on a roof?

Our selection of DIY roof mount solar panel kits offers flexible options for both grid-tied and off-grid systems. By installing solar panels directly on your roof, you can maximize your property's space. Plus, with our easy-to-follow instructions, you can have your solar system up and running in no time.

How many solar panels can fit on my roof?

The number of solar panels your roof can accommodate is determined by factors like roof size, orientation, and shading. Our solar panel cost calculator considers these variables to provide personalized recommendations, maximizing energy production within the available space.

Should you replace a roof with solar panels?

When considering replacing a roof with solar panels, coordinate with solar panel professionals. You can plan the timing to align with the actual roof replacement, allowing for a seamless process and a similar lifespan for your panels and roof.

What is the strongest roof mounting system in solar?

Ironidge builds the strongest roof mounting system in solar. Every component has been tested to the limit and proven in extreme environments. Grid tie inverters convert DC to AC power from your solar panels and provide net metering capability. View and analyze your solar energy production in real-time.

Does Project Sunroof have solar data?

We currently have solar data for portions of 50 states and Washington DC. See if we've got you covered. Project Sunroof is a solar calculator from Google that helps you map your roof's solar savings potential. Learn more, get an estimate and connect with providers.

Are ground mount solar panels a good option?

Plus, with our easy-to-follow instructions, you can have your solar system up and running in no time. If you have unused land with optimal sun exposure, a ground mount solar panel kit might be a great option. These kits are cost-effective and highly efficient, and they don't require any modifications to your roof.
