

SolarMax Energy Systems

Czech factory solar power generation system

Overview

In pursuit of achieving carbon neutrality by 2050, the factory is working toward zero CO₂ emissions by the end of 2025. Initiatives include the installation of a 1MW solar power generation system and the introduction of skylights to enhance natural lighting in the new building.

Czech factory solar power generation system

Photovoltaic system

A photovoltaic system, also called a PV system or solar power system, is an electric power system designed to supply usable solar power by means of photovoltaics. It consists of an ...
