DC and AC dual-use outdoor power supply

Overview

What is a dual input power supply?

A dual input power supply is designed for unique applications that can operate from either a DC voltage or AC voltage source. Our industrial grade supplies, including these, are able to operate in adverse weather conditions and extreme temperature ranges.

What is ups-AC/DC outdoor?

Our systems produce clean, uninterrupted power for critical AC and/or DC loads. In the event of AC (utility) power loss, the UPS-AC/DC Outdoor supplies back-up power for 24-48 hours, or longer if requested. We include a high quality, powder-coated, outdoor rated white aluminum enclosure, designed to house the battery and system electronics.

What is a ses AC/DC outdoor UPS?

The SES AC/DC Outdoor UPS™ system enclosure is powder coated white for cooler summer operation, and includes Goretex battery breather vents. Our systems produce clean, uninterrupted power for critical AC and/or DC loads. In the event of AC (utility) power loss, the UPS-AC/DC Outdoor supplies back-up power for 24-48 hours, or longer if requested.

What is PowerPac 1200 dual input?

The PowerPac 1200 Dual Input device is a compact and rugged AC/DC power supply and an intelligent battery charger in one, with a rated output of 28 V/40 A with AC as well as DC input. It meets the most discerning mechanical and electrical demands on ruggedness and can handle great input voltage fluctuations.

How many Watts Does a di power supply use?

Our typical power range for the DI series of dual input power supplies is 100 watts to 300 watts, mostly single output. As a special note, we have built a

1640 watt version. This power supply is high configurable and can be easily modified to meet other industrial applications.

Can a compact 1200 Dual Charge a 24 volt battery?

If the 230 V mains is selected as the primary power source, the power-supplying 24 V battery (12V or 36V version additionally available) can also be charged moderately. The ComPact 1200 Dual is both a rugged compact AC/DC power supply and an intelligent battery charger with a rated output of 28V/40A with AC and DC input.

DC and AC dual-use outdoor power supply

Dual Output AC-DC Power Supplies New Stock, Ready to ship!

Bravo Electro's dual output AC-DC power supplies are designed for applications requiring two precise voltage levels. From robotics to control panels, these units deliver reliable power in a ...

 Efficient
Higher Revenue

 Intelligent
Simple O&M

 Flexible
Abundant Configuration

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150W Peak Output Power
- 2 MPPT Trackers, 100% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules
- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locates PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection
- Plug & Play, EPS Switching Under 30ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
