

SolarMax Energy Systems

Djibouti Solar Photovoltaic Power Generation Company

Overview

What is Djibouti's new solar project?

The project will be the first solar Independent Power Project (IPP) in Djibouti and will be located in Grand Bara, south of Djibouti City. The solar project is being fully developed by AMEA Power under a Build-Own-Operate and Transfer (BOOT) model and will generate 55 GWh of clean energy per year, enough to reach more than 66,500 people.

Who signed the Djibouti Solar Power Project (IPP)?

The signing was witnessed by the Minister of Energy and Natural Resources, H.E. Yonis Ali Guedi. The project will be the first solar Independent Power Project (IPP) in Djibouti and will be located in Grand Bara, south of Djibouti City.

Why is Djibouti constructing a solar farm?

Djibouti's \$390 million solar farm is under construction in southern Djibouti as a result of a public-private partnership between Djibouti's Ministry of Energy and Natural Resources and Green Enesys, a German renewable energy firm. Construction began in 2018 after \$50 million in funding was secured by the World Bank and other financiers.

Who will take over Djibouti energy project?

The Sovereign Fund of Djibouti (FSD) will be joining the project before financial close as a minority shareholder. The off-taker for the project will be Electricité de Djibouti. The government of Djibouti aims to reduce CO2 emissions by around 40% by 2030. Djibouti's energy landscape.

What is Djibouti known for?

Djibouti's energy landscape Djibouti has abundant solar, wind and geothermal natural resources, as well as extensive coastline and dedicated port facilities, the US Agency for International Development notes.

How much power does Djibouti have?

“Djibouti currently has just over 100MW of installed generation capacity, of which only 57MW is reliably available to serve a population of 940,000 and its key industries. Have you read?
