

SolarMax Energy Systems

Domestic companies that make battery cabinets

-  **Efficient**
Higher Revenue
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 150% Peak Output Power
 - 2 MPP Trackers, 150% DC Input Oversizing
 - Max. PV Input Current 16A, Compatible with High Power Modules
-  **Intelligent**
Simple O&M
 - IP66 Protection Degree: support outdoor installation
 - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC & AC Type II SPD: prevent lightning damage
 - Battery Reverse Connection Protection
-  **Flexible**
Abundant Configuration
 - Plug & Play, EPS Switching Under 10ms
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 units Inverters Parallel
 - AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

Overview

What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

Where can a battery be installed?

Batteries can be installed on pull-out drawers or fixed shelves. We are pioneers in power electronics industry. Eram Power Electronics Company is a leading global power electronics manufacturer having worldwide operations with production facilities in Saudi Arabia and India for last 26 years.

Do energy storage cabinets need to be painted?

This ensures that energy storage cabinets maintain excellent appearance and performance, as well as resisting corrosion and UV radiation. We place particular emphasis on comprehensive pre-paint processes, including degreasing, cleaning and neutralisation, to ensure excellent paint adhesion and quality.
