

SolarMax Energy Systems

Dominican Island Solar Power Generation for Home Use

Overview

The Dominican Republic benefits from ample sunlight, making solar energy a perfect solution for residential power needs. A hybrid solar power system allows homeowners to generate electricity, store excess power, and export surplus energy to the grid under Net Metering agreements.

Dominican Island Solar Power Generation for Home Use

Construction of a 79MW photovoltaic solar park in the Dominican

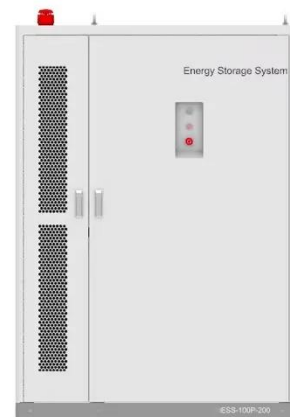

The project helps Dominican Republic to reach its goal until 2025, the year in which they expect 25% of the electricity consumed by the country to come from renewable energies, and has ...
