

SolarMax Energy Systems

Dominican Portable Energy Storage Power Company

Overview

What is the first solar-plus-storage project in the Dominican Republic?

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).

What is AES Dominicana - battery energy storage system?

The electro-chemical battery energy storage project uses lithium-ion as its storage technology. The project was commissioned in 2017. The AES Dominicana Andres - Battery Energy Storage System was developed by Fundacion AES Dominicana. The project is owned by The AES (100%).

What is the Dominicana Azul solar project?

The Comisión Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December). Construction has started on the first major solar-plus-storage project in the Dominican Republic, featuring a 99MWh battery system.
